Mayor Race Narrows To Six Candidates

Cyrus Walker Pulls Out; Three Seeking Aldermen Posts Also Withdraw

Granite City's bumper crop of mayor candidates was thinned out slightly with the close of the withdrawal period on Saturday. Petitions were withdrawn by Cyrus Walker, 2261 Woodlawn avenue, a carpenter at Granite City Steel Co. Three candidates for aldermanic posts also dropped out.

Six mayor candidates remain in the race which will be settled at the polls on April 6.

An earlier dropout was Rufus LeMaster, a former Third Ward alderman, who suffered a heart attack and another like candidate, Robert Gaughan, a former Second Ward alderman and a township assistant supervisor, died suddenly before he could file his petitions.

Still in the running for mayor are six candidates — four aldermen, Samuel Whitmer of the Second Ward, Donald Farney of the Fourth Ward and G. H. Sternberg and Mrs. Gabrielle Bottles of the Seventh Ward, a former Sixth Ward alderman and township tax assessor whose term is expiring, H. Van De Cruse, and a senior law student, Casper Nicholson. Mrs. Bottles' term of office is expiring, but those of Whitmer, Farney and Sternberg still have two years to go.

Aldermen Withdrawals
Aldermen candidates who withdrew petitions of nomination before the 5 p.m. closing Saturday were George Galles Jr. and Samuel Shackett, both Sixth Ward candidates for the four-year term, and John Davis, a candidate in the Second Ward. With Galles and Shackett's withdrawals, only two candidates are seeking the Sixth Ward four-year term: Casper Nicholson, incumbent, and Richard Fry, four candidates remain in the field for the two-year term. They are Cecil Williams, Gerald Williams, Thomas Nesbit and Patrick Malor.

In the Second Ward, there now will be a four-way race. Still in the running are Edmund Bartosch, incumbent, and Robert DeFuntz, Albert Ward Jr. and J. M. Alu.

All of the candidates have filed as independents.

GC Taxi Driver Found Shot in Cab

The body of Lester Leo Manley, 39, of 1816 Spruce street, Granite City, was found shot to death in his taxicab at 12:45 a.m. Sunday in a parking lot at 20th and Chestnut streets, St. Louis.

He had been shot beneath his right eye, presumably with a small caliber weapon. Police could establish no motive for the killing, though three St. Louis police officers noted that Manley was lying on the floor in front of him. His wallet was not found.

St. Louis police said they could learn of no enemies and that Manley generally was well liked. The body was lying on the right side of the front seat when found by employees of a dairy company who noted that the cab had been parked on the lot for a long time. Police said Manley had been dead about six hours.

The ruling was given after the fire was called at 8:45 a.m. Saturday.

Burning trash in a barrel ignited dry grass and the fire spread to the garage.

Burglary in Granite City

Narcotics thieves directed their attention to drugs only early Sunday when they burglarized

Vaughn's Pharmacy, 1830 Delmar avenue and made off with 120 quarter grams of morphine, an eight-ounce of cocaine and 150 tablets containing drug derivatives.

The theft was discovered early Sunday by police who noticed a car had been forced open.

Donald Vaughn, proprietor, said the wholesale value of the narcotics was slightly more than \$100. No value was placed for the drugs, resale on the open market.

In their search for narcotics, the thieves did not bother the drug store cash register. Police Chief Willard said the theft is being reported to the state narcotics bureau.

Decota Files Suit To Get His Name On Chouteau Ballot

A suit for a writ of mandamus to place the name of Duane C. Poag, Decota, on the ballot as a candidate for Chouteau township supervisor in the April 6 election was filed Friday after noon in circuit court at Edwardsville.

A hearing was set for 9:30 a.m. Feb. 26 by Circuit Judge Harold L. Clark, who enjoined Walter C. Sparks, township clerk and defendant in the suit, from having ballots printed until the matter is decided.

The only other candidate who filed petitions for supervisor is Joseph Teweider, incumbent.

Decota said he tried to file petitions with Sparks at 7 p.m. last Monday. He was told it was two hours after the general 5 p.m. deadline.

In his complaint, he claimed that Sparks has no office in which to conduct township business, has no regular office hours, but operates from his home at any hour of the day or night. He also claimed that he visited the Sparks home on two other days before the deadline to file his petitions, but the clerk was not at home.

His attorney cited a state Supreme Court ruling that petitions must be filed during regular office hours, at the official office, by the deadline date. He maintained that Sparks had established regular office hours at his home at any hour of the day or night.

The complaint said Sparks accepted the petitions but they were returned two days later. Sparks was to have conferred with the township attorney to file the petitions, according to the complaint.

The township clerk has been ordered to show cause why Decota's name should not appear on the ballot as a candidate for supervisor.

Teachers Use Current Events Approach

Lake Sixth Graders Try the Stock Market

Sixth graders at Lake school in Granite City are learning their mathematics Wall street-style.

The youngsters recently purchased three shares of Universal Match Corp. common stock for \$43.88. At that time, "Common" was listed at 14 1/2. Friday morning, the class turned to the financial page and found it was up to 18 1/2—making their stock worth \$52.37.

"For three years my classes have been theoretically buying stock, figuring the profit and loss and plotting graphs," said the teacher, Alfred Wilson. "So I thought let's see what would happen if we really bought some."

The pupils were enthusiastic, borrowed a buck or more from their folks and took the big plunge. Wilson arranged for the purchase through a broker friend and paid the commission himself.

Right now, the class is happy with the investment and is summing up envisioning an ice cream and candy binge when they sell in May. But ice cream and candy are only minor by-products of this investment. Their real gain is learning.

Active Stock

Universal Match has been an active stock, with changes almost daily—exactly what the teacher ordered. Following a daily ritual, the pupils figure how their investment is going, getting valuable practice in multiplication, division, subtraction and addition of fractions.

"It's interesting to them and it's interesting to me," said Wilson, happy with the achievements of his class. He carries this approach into reading and writing as well as arithmetic.

The St. Louis morning newspaper is used daily—providing a "textbook" each day. Through an agreement with the newspaper, each child receives one copy free. Today's headlines are used in conjunction with regular textbooks.

A list of difficult words seen in the paper are used to draw up

Charged in 2 Cities

William Davidson, 43, East St. Louis, was booked at both the Madison and Venice police stations early Saturday. In Madison he was charged with operating a motor vehicle without a driver's license and in Venice with failure to pay toll at the McKinley Bridge. He was arrested in Madison at Third and Ohio avenue.

Two-Car Collision

Two cars driven by William Abernathy, 2308 East 24th street, and Arnold Aubrey, St. Louis, collided at 6 p.m. Thursday at East 24th street and Namecki road after both had made stop signs and Abernathy proceeded to make a left turn onto Namecki road.

vocabulary and spelling lists. Editorial cartoons are used as the basis for short analytical essays. Statistics from sports box scores, as well as the stock market quotations, are used as math aids.

"We even use the datelines of stories," Wilson explained. "One boy or girl goes to the map. Say the dateline is 'Cairo.' The pupil points to Egypt and says 'Nasir.' He must know the country and the ruler, you see."

Tunka Abdul Rahman?

The teacher says his pupils have been quite taken with the current events approach and that the results have been remarkable. Some class members have advanced well beyond the normal sixth-grade level, he says.

Wilson displayed a "Names in the News" test in which world leaders' names must be matched with their positions. Know Tunka Abdul Rahman? Lake sixth graders do. He's the prime minister of Malaysia.

A vocabulary quiz requires matching words like "guerrilla," "amnesty," and "euphoria" with their definitions.

Wilson, who hails from Little Wolf Lake in southern Illinois, received his bachelor's degree from Southern Illinois University and his master's from the University of Illinois. He's been teaching in Granite City seven years.

He has some other effective gimmicks in his educational bag of tricks. The children keep statistics on St. Louis Hawks basketball team and use the data for mathematical exercises and as a basis for complicated circle graphs. The same is done for the Cardinals baseball team in the spring.

Figuring the Track
One of Wilson's favorites is a

graph kept on the spring season of Cahokia Downs horse racing. No, they don't figure the racing form—merely chart the daily attendance in comparison with the amount of money wagered that day. Then the pupils figure the average amount bet by each person.

"These kids are pretty sharp," he said. "They noticed that while attendance went way up on weekends, the average wager was way down. They asked me why. I really didn't know but I figured it was because during the week you have your hard-core bettors out, while on the weekends, people who don't mind losing a few bucks are just looking for a night of entertainment."

Wilson admits his methods are looked upon with some skepticism by educational "traditionalists," but he has the backing of the administration and is continually winning converts in talks before groups of educators. "If you can hold interest in it, you can teach it," is his guiding philosophy.

Lake Principal Arthur Menendez is interested—he's a Universal Match stockholder, too. As of Friday his investment was worth \$126 on the dollar.

Seven Warriors Qualify for State Tourney

Six are Champions at Wood River As Wrestlers Take 12th Straight

Seven members of the Granite City wrestling team will leave on Thursday for the Illinois High School Association state tournament at the University of Illinois in Champaign. The state finals will be held Friday and Saturday.

Six of the Warriors won individual championships at Saturday's Wood River sectional. They are heavyweight John Evenden, Gary Forshee (180 pounds), Jim Valicoff (138), Rich Bledsoe (120), Steve Cavanaugh (112) and Bill Fuchs (95). The seventh, Rich Grizzard, was runner-up at 133 pounds.

The Warriors won their 12th straight sectional title with 93 points to second-place Decatur MacArthur's 50. It was the school's 21st sectional crown since 1939.

Other teams scoring were: Decatur 47, Edwardsville 40, Quincy 22, Springfield Lamphier 21, East St. Louis 15, Springfield Feibush 15, Wood River 14, Alton 10, East St. Louis Lincoln 9, Decatur MacArthur 8, Jacksonville 8, O'Fallon 5, Hillsboro 5, Bethalto 3, Carbondale 3 and Decatur Lafayette 3.

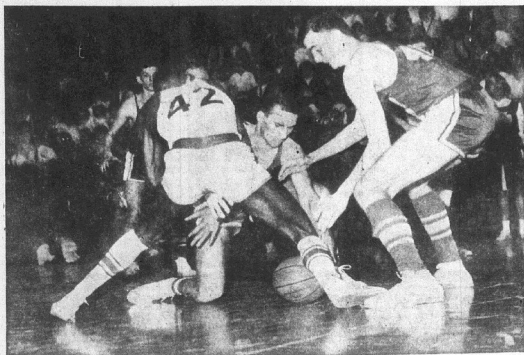

Those schools not scoring were Belleville, Carbondale U. High, Carmi, Murphysboro, Piasa, a Southwestern, Quincy CBC, Roxana, Springfield and Vandalia.

Bledsoe came out of the tournament with a perfect 27-0, the team's only unbeaten wrestler. Fuchs has a 28-0 record at 95 pounds but took one defeat in a 100-pound bout late in the season.

Other records of qualifiers: Cavanaugh 29-1, Valicoff 25-1, Forshee 29-3, Evenden 30-2 and Grizzard 29-3-1. Bledsoe, who represented as sectional champion along with Cavanaugh, was the state runner-up two years ago at 103 pounds.

Coach Bill "Red" Schmidt called special attention to the effort by Valicoff, who had just returned to school Friday after recovering from flu. He whipped Edwardsville's Jim Crump, who had beaten Valicoff twice by 8-5 scores this season, 5-0 in the championship bout.

There were no pins in any of the 12 final bouts but Grizzard pinned his first two opponents of the tourney — Murphysboro's

Maxvill Inks Cards' Pact; 'Very Happy'

Maxvill Inks Cards' Pact; 'Very Happy'

Granite City infielder Dal Maxvill signed his 1965 contract with the St. Louis Cardinals Friday and told the Press-Record today he is "very, very happy" with the agreement.

Maxvill, a standout in last fall's World Series, said he felt the raise he was after. Originally, general manager Bob Rosen offered Maxvill the same salary he received last season.

"I'm very satisfied with the way things worked out," Maxvill said. Maxvill spent much of 1964 in the minors before an injury to regular Julian Javier thrust him into the midst of the pennant and World Series action.

Maxvill said he hopes to get a shot at Javier's second-base position during spring training at St. Louis, Mo. He will leave here Thursday for camp, which officially opens March 2.

Javier is among seven Redbirds still unsigned by Hovsaw. He is reportedly playing baseball in the Dominican Republic and has been coy about agreeing to contract terms.

The city is to be prepared to increase the salary of the township supervisor from \$3900 to \$5500 a year, starting next May 1, and last week the council authorized the mayor to contact the U. S. Demand Growing For Area Tour Brochure

The 32-page tourism brochure, part of an Illinois Region 2 Tourism promotion program, is attracting increased interest and has thus far been requested by more than 50,000 persons in 50 states and 31 foreign countries, many of which are from behind the Iron Curtain.

The brochure which highlights points of interest within an 11-county area of southern Illinois is entitled "Explore Illinois, Expedition Land." It has been not only of interest to out of states and foreigners, but also to native Illinoisans who had never realized and taken advantage of the exciting points of interest within their own state.

Anyone interested in securing a copy of the brochure is asked to write Tourism, Box 886, Belleville, Ill. The 11 counties comprising the Region 2 territory include Madison, Bond, Calhoun, Clinton, Fayette, Jersey, Marion, Montgomery, Monroe, St. Clair and Washington, all within the Kaskaskia River Valley.

NEARLY READY FOR OCCUPANCY—possibly this week — is the new West Granite fire house at Rock road and Roosevelt street. Fire Chief Elijah King said the contractor has virtually completed his work and that water and phone-alarm connections are to be made.

INTERIOR VIEW of the new station showing the large overhead doors for at least two pieces of equipment. The city is planning to send an emergency first aid vehicle to the new station to be in service with a fire truck.

PLENTY OF STORAGE SPACE—quite a difference from the present station—is available in the new building, which cost \$46,740 to construct.

IT CAN'T BE TOO SOON for West Granite firemen who are anxious to move into the new station. Firefighter Charles Farrell points to the woodwork in the present building that has been honeycombed by termites. The damage is directly above the station's alarm system. The old station is at Cayuga street and Rock road.

ANOTHER TERMITE HAVEN in the old station on Cayuga street is the floor. Firefighters say that at night they can hear the insects gnawing away at the woodwork and they recall that once a city map was posted on a wooden wall and termites ate it away, carefully following the lines of the streets.

TIGHT SQUEEZE for larger fire trucks has posed problems for firemen backing the engine-pumper into the small building on Cayuga street and Rock road. Firemen sleep in the small room at the right of the truck.

Lions State President Outlines Publication

Publication of a proposed state-wide magazine for Illinois Lions clubs to include current area activities was discussed by LeRoy Sweet of Franklin, Ill., Lions international district governor, who was entertained at a dinner meeting Thursday night by the Madison Lions Club. Twenty-seven persons were present.

Sweet said that possible action on publishing a state magazine looks favorable. He added, the project could greatly benefit all Illinois clubs which could utilize the medium to publicize projects.

Presently, he said, space in the Lions' national magazine is at a premium and items of interest to Illinois clubs frequently are unable to be published.

Sweet was accompanied on his annual visit by Ralph E. Johnson of Franklin, district secretary. Edward R. Dubish welcomed the guests and conducted the business session. Plans were completed for the club to host an appreciation dinner for members of the Madison high school varsity football squad at 6:15 p.m. Thursday, at the Sportsmen's Club, Tenth and Iowa streets, Madison.

Principal speaker at the annual banquet will be St. Louis Football Cardinal Monk Bailey. The professional football player will relate his personal experiences and discuss NFL plans for the 1965 football season. A sport's film, "1964" Cardinal Highlights," also will be shown. Emmet Puzia and Harry Briggs are in charge.

Madison Firemen On 3 Calls in 2 Hours

Madison firemen answered three alarms in slightly more than two hours Thursday afternoon, only one of them resulting in damage.

The first alarm was at 1:32 p.m. when scrap paper on a truck in the Fox Bros. Yards, Fourth and State street, caught fire. Firemen said damage was confined to the load of paper. At 1:52 p.m. a shed at the rear of the Elvers Johnson home at 715 Jackson street caught fire, apparently from burning trash and was destroyed. Firemen said there was no loss involved.

Loss of approximately \$100 was reported to the exterior of a house occupied by Steve Dabak, 1704 Sixth street. Firemen said the outside of the frame home caught fire from burning grass. Firemen answered the alarm at 3:45 p.m.

In Mitchell Area

Complaints Continuing On Stray Dog Problem

The problem no control on stray dogs roaming the Mitchell area arose again Thursday afternoon when a complaint was made that a dog had a midnight snack on his hind leg and was endangering children.

The David L. Beckley of Old Alton road, reported the dog was in pain and was afraid children in the neighborhood would be bitten.

She said that appeals to the county, township and Granite City authorities for assistance were fruitless, and that finally officers of the St. Louis Humane Society drove to Mitchell to release the dog.

Madison county does not have a full time dog catcher and has had an animal shelter since last summer. A dog catcher will respond to a call only when Dr. Conrad, county rabies control inspector, receives a report of a dog.

Until it is determined if he has rabies, the dog is kept in the township supervisor, complained that the Mitchell area has been plagued by stray dogs for some time. He wanted pets from both the Quad City and Alton areas.

bringing the total for all purposes to \$941,250.

Only comment in approval of the measure came from William "Mike" Ebersold of Venice, newly-elected trustee, who said he hoped the levee board officials would try to "hold costs to a minimum" in operations this year. "You did a good job last year," Ebersold said, adding that "I'm always happy when we can operate economically."

The board also ratified a new agreement with the city of Collinsville for participation in the district's sewage treatment plant. John Sprague, levee board attorney, explained the new agreement contained the new rate of 90-cents-\$1.25-1.80 per month.

New England's Place In History

A concise serial history of America and its heritage has been prepared by the Daughters of the American Revolution in observance of American History Month—February.

New England is rich in history. The landing of the Pilgrims at Plymouth in 1620 marked the beginning of successful colonization in this area.

Plymouth Rock, where they first stepped ashore, the sarcophagus containing the remains of the pilgrims, the Mayflower and Brewster Gardens represent the many monuments to history in this early settlement.

Just outside the city limits, Plymouth Plantation, a reproduction of the original Pilgrim village, is being constructed.

A replica of the Mayflower, the ship upon which they sailed to these shores, rests at anchor in the harbor.

Boston Common

The path of Freedom's Trail in Boston leads visitors across Boston Common to the State House. With its golden dome, to famous Park Street Church on Brimstone Church and to Granary Burying Ground, where stand the graves of John Hancock, Robert Treat Paine, Samuel Adams, Paul Revere, and the patriots of Benjamin Franklin.

Within walking distance is Old South Meeting House, the spot where Revolutionary mass meetings were held and the plot for the Boston Tea Party took place.

Just a block away is the Old State House, built in 1713 and known as the birthplace of the Revolution.

Directly behind it in the center of the cobblestone street is a

Brotherhood And World Religions

Two and a half billion persons—three-quarters of the world's population—are followers of the world's major religions.

As a "rule of thumb" on the subject of brotherhood, each religion advocates conduct along the lines of the "golden rule."

BRAHMANISM: "This is the sum of duty; do naught unto others which would cause pain if done unto you."

BUDDHISM: "Hurt not others in ways that you yourself would find painful."

JUDAISM: "What is hateful to you, do not to your fellow man. That is the entire law, all the rest is commentary."

CONFUCIANISM: "There is one sum of loving kindness: to do unto others as you would have them do unto you."

TAOISM: "Regard your neighbor's gain as your own gain, and your neighbor's loss as your own loss."

VITAL VOTER INFORMATION.

FIRST OF A SERIES.

264 HOUSEWIVES SURVEYED ON GARBAGE COLLECTION

Garbage collection in Granite City, long a controversial subject, has become an interesting and important issue in the coming municipal election. The voting public pays the collection cost, suffers from poor service or benefits from good service, and is entitled to know the facts on the issue, facts free from partisan slanting or deliberate misrepresentation. May I present to you the FACTS?

The TOTAL cost of garbage collection to the city, under the present contract, is \$147,500 per year.

Comptroller Doherty tells us the cost of the old method of collection for a year at present rates of pay for city workers would be \$170,412. This includes \$10,000 for a necessary equipment replacement reserve fund. For gas, cost, projection, Mr. Doherty used operating costs, gas, oil, repairs, etc. from the records of fiscal year 1961-62.

Our present system of collection saved the taxpayers of Granite City, for the fiscal year 1963-64, \$23,112.

The collection contract, at its present contract price, is realizing an exorbitant profit from the city.

The excessive portion of his PROFIT must be returned to the city and can best be done by getting truly competitive bids on future collection.

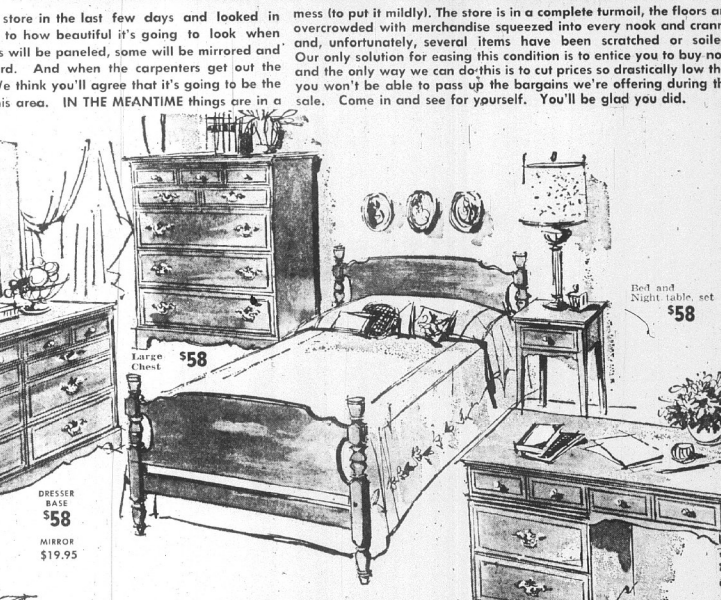

To be fair to those who honestly thought the city could operate its own collection service to the city's benefit, the council also authorized the award of bids on the necessary collection equipment. Equipment bids are being sought on the basis of outright purchase, outright lease or lease with purchase option.

Armed with equipment bids and collection service bids, the Finance Committee can make an accurate cost comparison of both proposed methods of future collection.

Realizing that the quality of service must be given prime consideration in any comparison of service options,

Madison County Farm Adviser

SORGHUM-SUDANGRASS ACREAGE INCREASING

Several farmers have recently inquired about sorghum-sudangrass hybrids. Acreage of this new forage crop is increasing so far that every farmer growing it is entirely satisfied with the results, but in most cases it has performed up to expectations.

Preliminary data on the performance of sorghum-sudangrass hybrids and varieties in Illinois during 1964 point to many possibilities for high-yielding, disease-free, high-protein forage with relatively low prussic acid potential. Report University of Illinois agronomists A. W. Burger and C. N. Hittle.

The agronomists tested 20 entries at Urbana, Illinois, and Carbondale, including three sudangrass varieties, one sudangrass hybrid and nine sudangrass hybrids. All entries were tested at both three and four cuttings per season.

Many of the entries produced from 1.5 to 2 more tons of dry matter an acre under the three-cutting system than under the four-cutting system. Forage from the first harvest tested about 2½ more protein than the four-cut system than for the three-cut system.

Sorghum-sudangrass hybrid cut at six-inch heights contained 2.5% more protein than those cut at three inches under the four-cut system. In the three-cut system, the six-inch height showed slightly more than a 5% crude protein advantage over the three-inch height. The crude protein content ranged from 15 to 20%, depending on manage-

ment, treatment and variety or hybrid.

Although the prussic acid content was higher for forage from the four-cut system, Burger and Hittle found no dangerous levels of hydrogen cyanide (HCN) in any of the 20 hybrids or million is considered safe—in any varieties under any treatments.

Levels of some vitamins contained very high amounts of prussic acid immediately after harvest, but two days later such levels had dropped greatly. In general, nitrate levels were not in the toxic range, although in some cases they were not in the safe range.

Piper, a well-known, recommended sudangrass variety, yielded well under the four-cut system. The sorghum-sudangrass hybrids yielded especially well at Carbondale under both three- and four-cut systems.

More complete reports will be available after all protein and other chemical analyses for the 1964 crop have been completed.

TAX SAVING HINT

Before signing your income tax papers, you may want to consider your tax bill by the investment credit and certain real property having a life of four or more years.

Yours. Your county farm adviser has books for this purpose that are used by over 100 Illinois farmers each year.

FARMERS AND HERBICIDES

A recent Illinois Crop Reporting Service survey indicates that about 63.7% of Illinois farmers used herbicides on all of their corn and soybeans in 1964.

The study indicated that 5.7 million acres of Illinois corn and soybeans are treated with herbicides.

Two Fined \$130 Total In Disturbance Cases

Ronnie Pigg, 21, of 2440 Ohio Avenue, was fined \$60, and assessed \$15 costs Thursday, and Silver Pig, 19, of 1306a Edison Avenue, was fined \$50 and \$5 costs. Both were arrested Jan. 10.

Ronnie Pigg was fined \$10 for using profanity, \$20 for interfering with an officer and \$25 for creating a disturbance, with \$5 costs in each case. Silver Pig was fined on a charge of resisting arrest.

FARM ACCOUNT PILOT PROJECT

Fourteen Madison county farmers are participating in a farm account pilot project with a new farm record book prepared by the agricultural economics department, University of Illinois.

The new book will be made available to all farmers in 1966, with improvements suggested by this year's experience, to replace the present Illinois Farm Record book, now used by more than 200 farmers of the county.

A recent school of instruction with a new book for the co-operators was conducted recently by Prof. Fay M. Sims of the University of Illinois at Urbana. The school was held at the end of the year. Special attention will be given to analyzing the farm business on the basis of the records and changing operations and methods indicated by the analysis to be advisable.

Cooperators in this special project are Robert W. Beitel, Walter W. Bohn, Carl E. Eberhart, Robert Hans, Melvin Highland, Rudy Kappeler, R. M. Kuttin, Charles Luchman, Eugene Meffer, Dale E. Nagel, Glen Reichmann, Elmer Starkey, Alvin P. Steiner and Ray E. Winter.

FEEDSTOCK FOR TOMATOES

Greenhouse tomatoes are a crop with a future, says Bill Courter, University of Illinois horticulturist at the Dixon Springs Agricultural Center.

Large yields of tomatoes can be produced during winter and spring months when supplies are low and prices are high, he points out.

Yields from a two-crop greenhouse system range from 75 to 100 tons per acre. Better growers can produce nearly this much from a single spring crop. Yields from summertime, fresh-crop tomatoes range from 10 to 15 tons per acre.

The initial costs for greenhouse facilities have been reduced sharply with the development and improvement of plastics for greenhouse construction. Investment costs in many cases range from 75 cents to \$1 per square foot. Glass houses cost \$2.00 to \$2.50 per square foot.

Courter points out that a greenhouse ½ to 1 acre in size is a full-time family business that will return a satisfying income to the family of the grower who can consistently produce high yields. Eight pounds per plant from the fall crop and 12 pounds per plant from the spring crop are realistic, practical yields, according to the horticulturist.

At this time, a grower can expect to market 20,000 eight-pound baskets per year. Prices on the Chicago market have averaged near or above \$2 per basket for the past four years.

DIZZY DOZEN MEET

Mrs. Faye Gliss entertained the Dizzy Dozen club Thursday evening in her home, 2916 Forest avenue.

The members honored Mesdames Deanne Burdum, Margaret Spankline, and Marilyn Patterson on their birthdays and presented each with a gift.

The game of Yotsi was played and prizes went to Mesdames Liz Orr, Rose Spalding and Margaret Foley.

A dessert course was served by the hostess to those named and Mesdames Page Curtis, Dorothy Cavins, Kathy Dimmick, Pat Nicholas and a guest, Mrs. Clarine Coggins.

The next meeting will be held March 18 in the home of Mrs. Page Curtis, 1624 Courtenay Blvd.

Brownie Troop 720, sponsored by the Frohardt PTA, visited a television show Wednesday afternoon.

Preceding the show, a brief meeting was held and past activities were discussed. They included a Valentine party at the home of the leader, Mrs. Carol Wellman, 26 Riviera drive, and a train trip to and from St. Louis.

While here, they toured historical buildings. On Feb. 24, a joint Valentine party had been held with Girl Scout Troop 218 and the leaders, Mrs. Mary Ann Reid and Mrs. Beverly Benoit.
